

## TIPS

### How to Use a Slit Punch

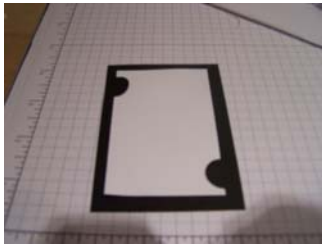

- Step 1: Cut your layered piece  $\frac{1}{2}$ " larger on all sides.
- Step 2: Line up punch on one side and make your first punch.
- Step 3: Insert your 2<sup>nd</sup> layer by tucking the piece under the "slit" created in Step 2.
- Step 4: Insert the punch on the other side lining it up visually with your 2<sup>nd</sup> layer and punch.
- Step 5: Insert the other side of your 2<sup>nd</sup> layer under the slit.

### Tips for Punching Evenly Spaced Holes

- Step 1. Punch out the number of "circles" you want in your strip with the circle punch.
- Step 2. Glue each circle to your strip of cardstock spacing them out evenly.
- Step 3. Line up your punch with these circles and punch each one out of your cardstock.
